-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1. This is a first Office action on the merits for application serial number 10/789170 filed 12/27/04. There were two claim 2's originally. The claims have been renumbered as claims 1-8 in accordance with 37 CFR 1.126. Applicant should carry forward this numbering throughout the prosecution.

2. The disclosure is objected to because of the following informalities: the first sentence of the specification should be amended to reflect that application serial number 09/891426 has issued as U.S. Patent 6,758,230.

Appropriate correction is required.

3. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 8 are indefinite for failing to end with a period.

The scope of the claims is rendered indefinite by the defining the shelter with direct relationships to the airplane. As understood a shelter is being claimed alone with the intended use environment being for an airplane. Defining elements of the shelter with direct relationships to the airplane, which as understood is not intended to be a positively recited element of the claims, renders the claims unclear. Is the shelter being claimed alone as understood or in combination with an airplane? If the shelter is intended to be claimed alone language such as "positioned proximate to each wingtip of said airplane" and

"supported over the wings of the airplane" The shelter must be defined to stand alone with references to the plane made with functional language.

In claim 1 "said shelter structure" lacks antecedent basis.

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1, 2, 7 and 8 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,758,230. Although the conflicting claims are not identical, they are not patentably distinct from each other because each of the elements of the instant claims is included in the patent claims.

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3635

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1, 2, and 8 as best understood are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 1,350,289 to Richards.

Richards provides vertical support posts b, g, cantilever beams a^2 , support cables k, e, f, covering d, footings/anchors at the bottom of the vertical posts as showing in figures , and anchor cables e, f.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert J Canfield whose telephone number is 703-308-2482. The examiner can normally be reached on M-Th.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Friedman can be reached on 703-308-0839. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
